

Background

Waterford Bridge Property Group has been developing its own properties under the name of Invest Group Properties since 1990. Realising the many pitfalls that small developers face, we made the decision to assist other land owners and small developers such as ourselves, to be flexible and tailored to best suit your needs through any or all of the stages of development.

Services

We offer a wide variety of services and have partnered with a number of other professionals in their various fields of expertise, making us a one stop solution for all your Property Development related needs.

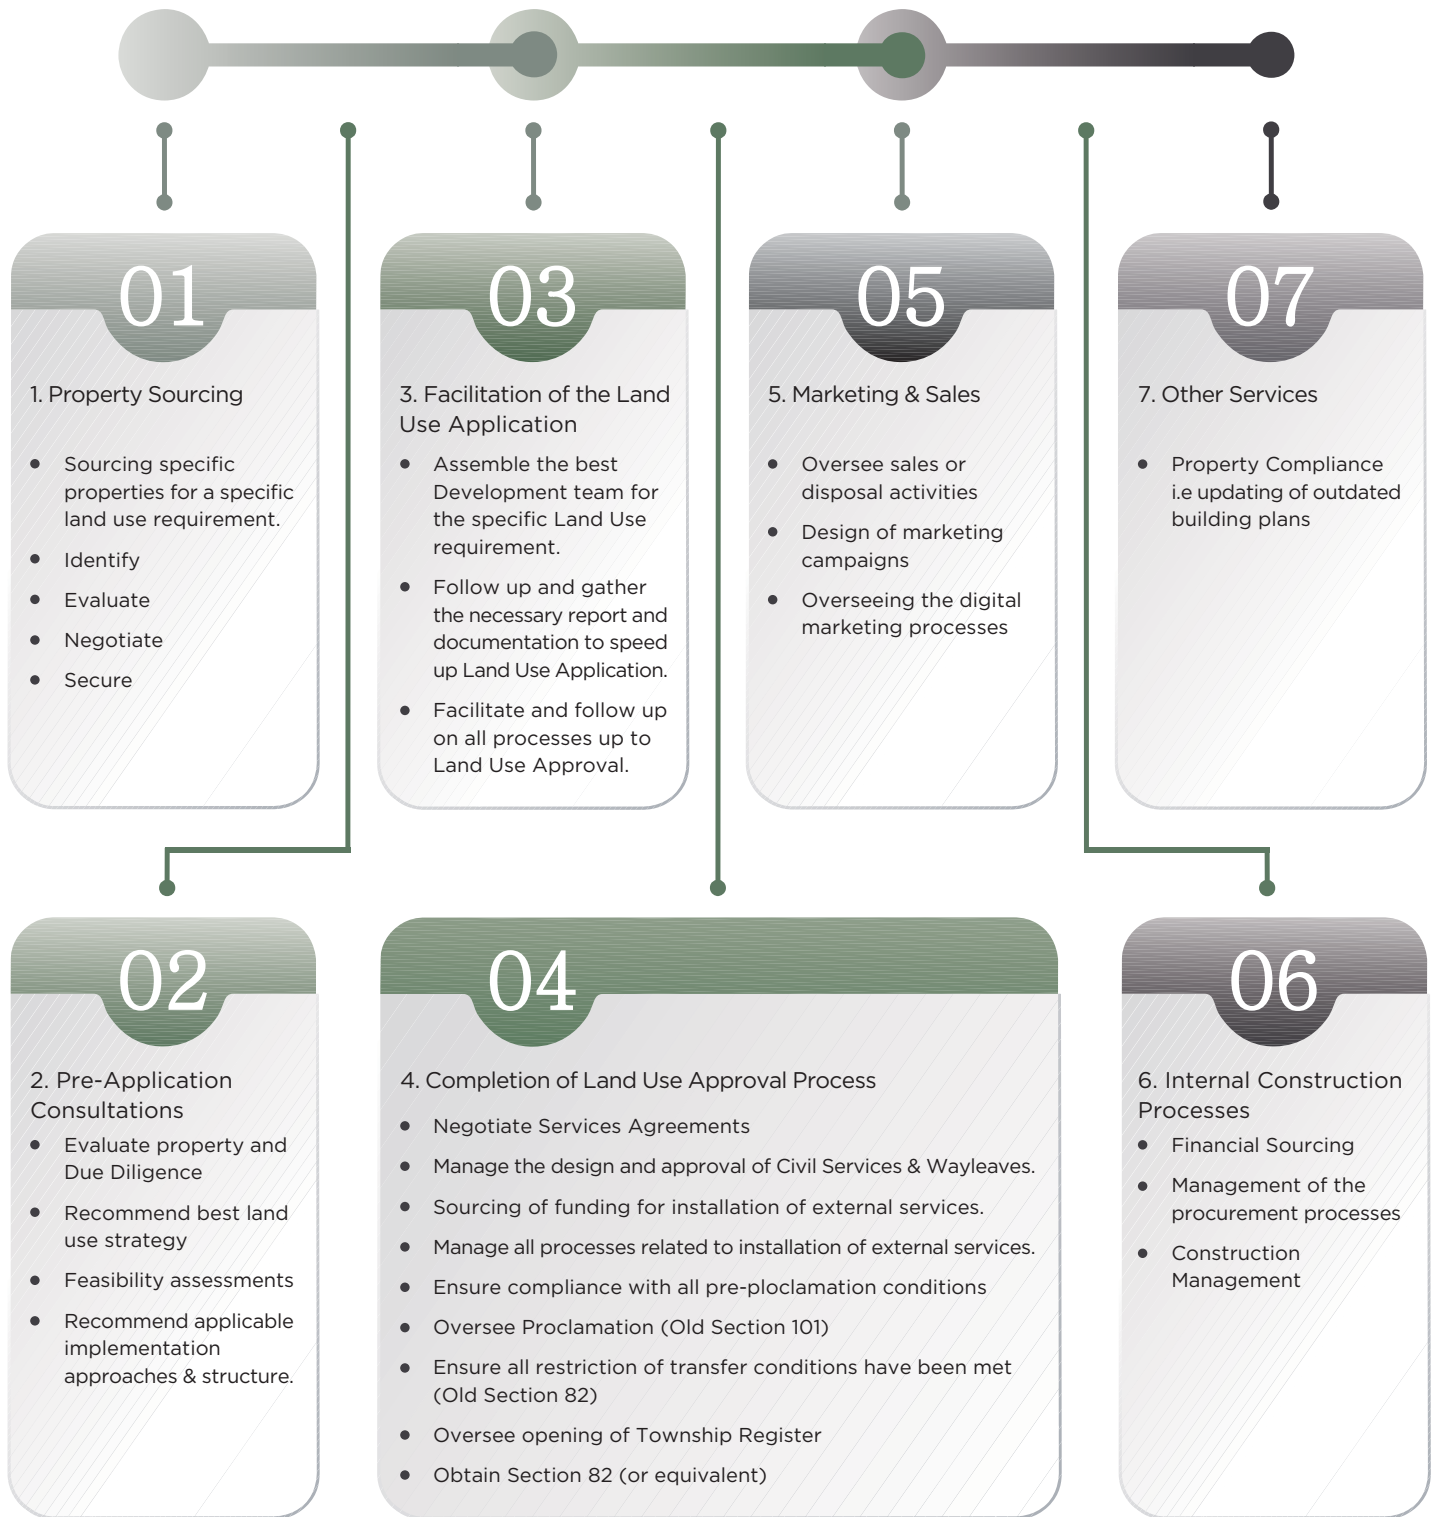

We will structure a tailor-made service package to best suit your requirements. Through our collaborative approach, the best possible team will be selected to ensure that your objectives will be met, whether you want to increase your rights with the sole purpose of selling your land with improved rights, need assistance to do your own development or an investor or co-developer.

Combining our expertise in various service areas we can assist throughout the **Property Development Life Cycle**.
